

ENGAGING THE COMMUNITY

Board motions, (April 2009):

102(a)3

That the Board consult with the community on the problem of declining enrollment and possible elementary school consolidation in the Sechelt area.

102(a)5

That based on continuing consultation, that options be developed to address School District #46's current challenges of declining enrollment, school finances, enhancing education opportunities for "middle years" students, and ensuring optimal education for all our students --- for the Board to select an option at a regularly scheduled November 2009 public meeting.
